**Re: Elmwood Park Resident v. Missouri Metals**

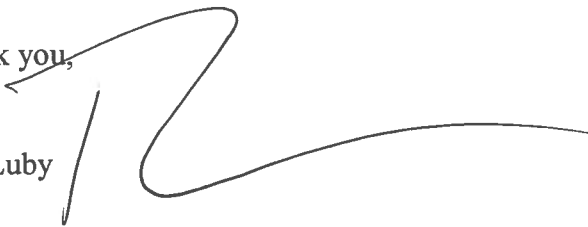

Please consider this my request pursuant to the Freedom of Information Act regarding the Elmwood Park Neighborhood Site. (9970 Page Boulevard, St. Louis County, Missouri) If possible I would like access to your documents regarding the Elmwood Park area contamination site. I currently represent a number of residents in the area. I would appreciate it if I could speak with someone in person with respect to this issue.

We will want copies of all sampling results, reports, data, etc. Also, we will want all of your correspondence with Perkin Elmer. We are especially interested in tests indicating elevated levels of TCE, PCE, or levels leading the expansion of the plume.

Please note, that this matter is in litigation in the United States District Court of the Eastern District of Missouri. I hope to find EPA responsive to the needs of my clients (Elmwood Park Residents)

Thank you,

Ted Luby
